

# How to connect tutwifi2025 – Windows 11

Toyohashi University of Technology, Information and Media Center

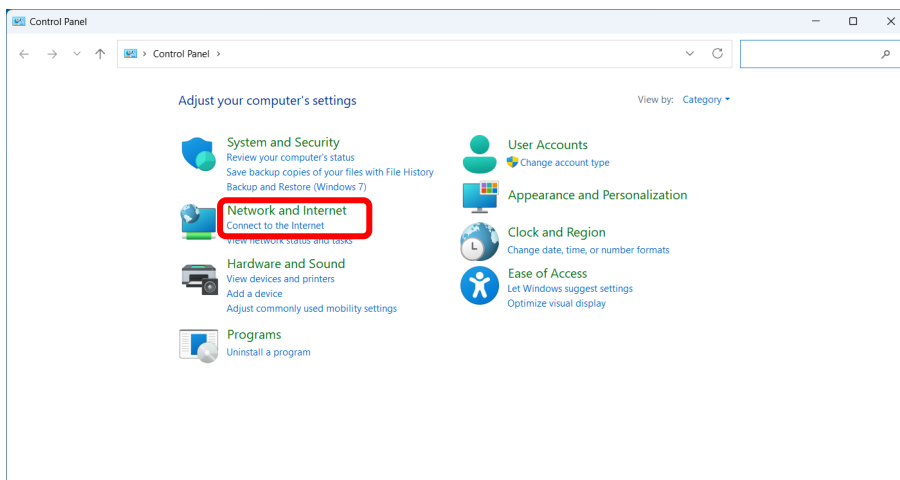

This document describes the procedure for connecting to tutwifi2025 on Windows 11.

## Setup procedure

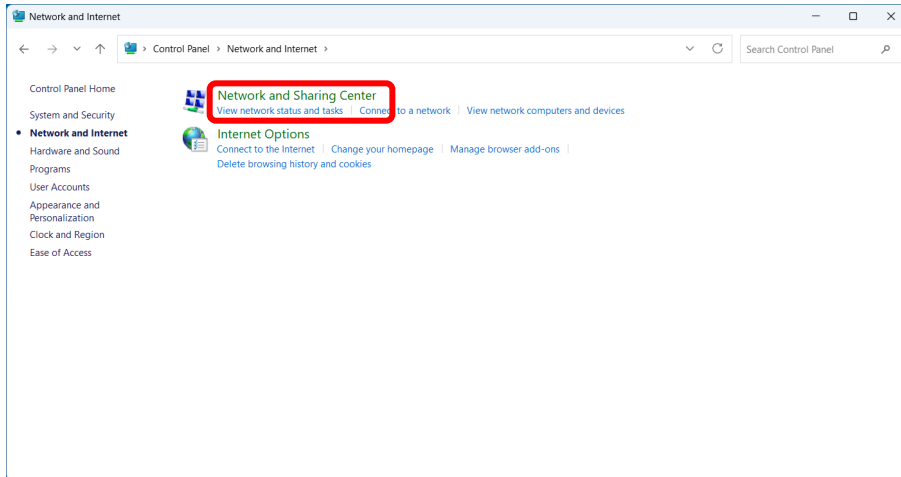

1. Type "control" in the search window on the Start Menu and click the "Control Panel".

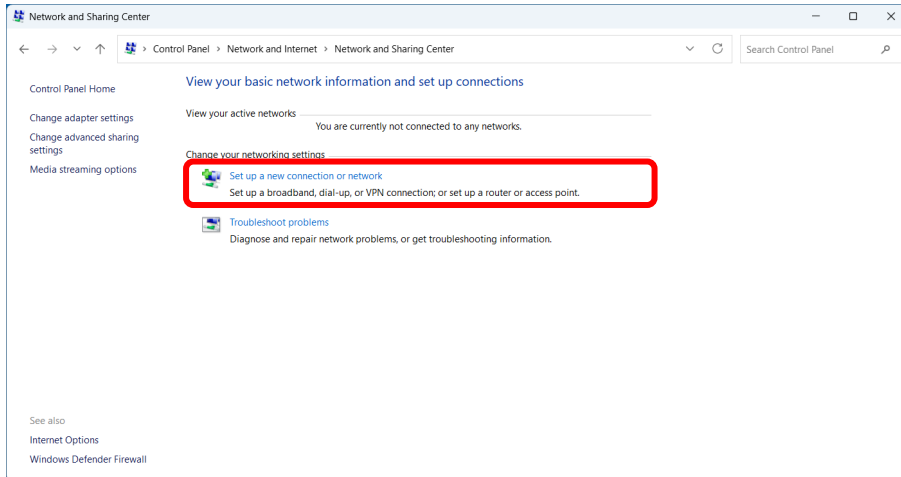

2. "Control Panel" window opens, select "Network and Internet".

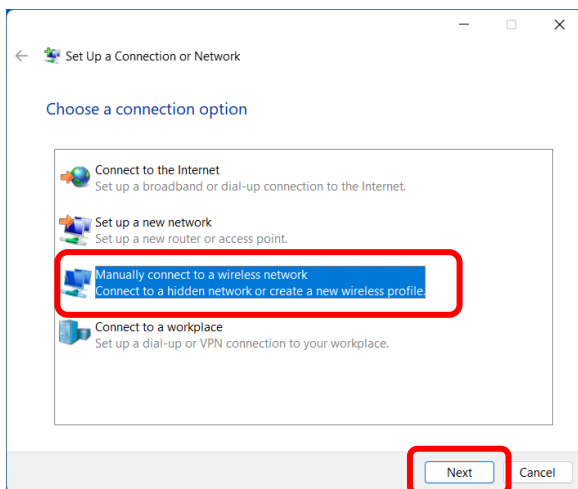

3. “Network and Internet” window opens, select “Network and Sharing Center”.

4. “Network and Sharing Center” window opens, select “Set up a new connection or network”.

5. Select “Manually connect to a wireless network” and click “Next” button.

6. Enter “tutwif2025” as the network name. The types of security and encryption will be a combination of WPA2-Enterprise and AES. Click “Next”.

Manually connect to a wireless network

Enter information for the wireless network you want to add

Network name:

Security type:

Encryption type:

Security Key:   Hide characters

Start this connection automatically

Connect even if the network is not broadcasting

Warning: If you select this option, your computer's privacy might be at risk.

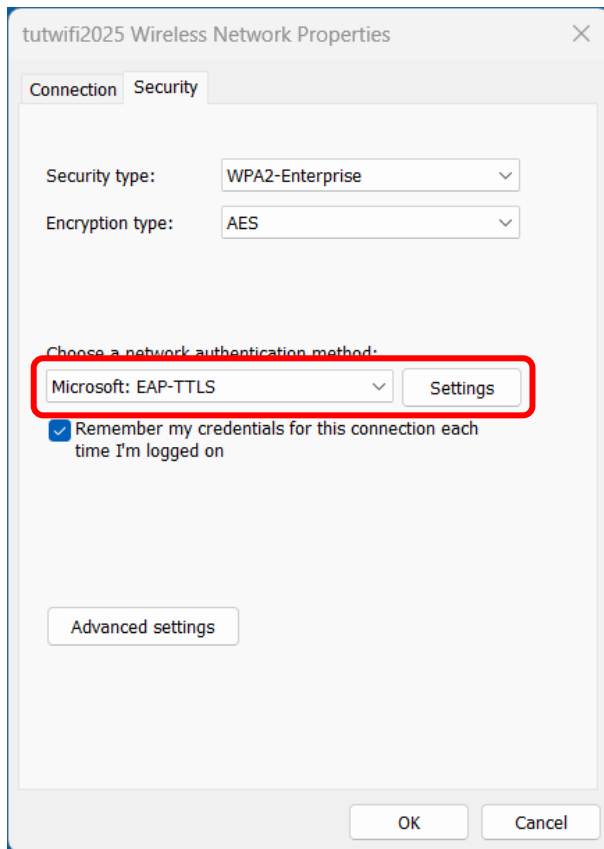

7. If “Successfully added tutwif2025” is displayed, select “Change connection settings”.

Manually connect to a wireless network

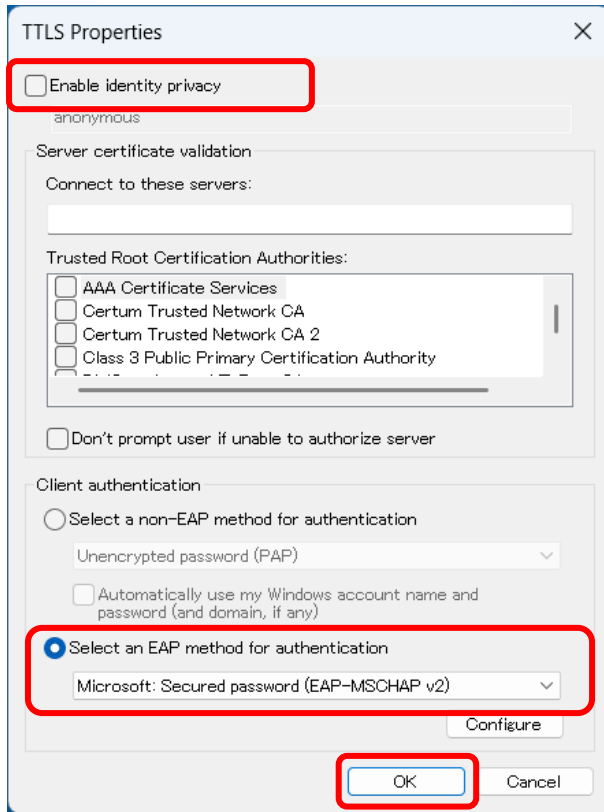

Successfully added tutwif2025

[→ Change connection settings](#)  
Open the connection properties so that I can change the settings.

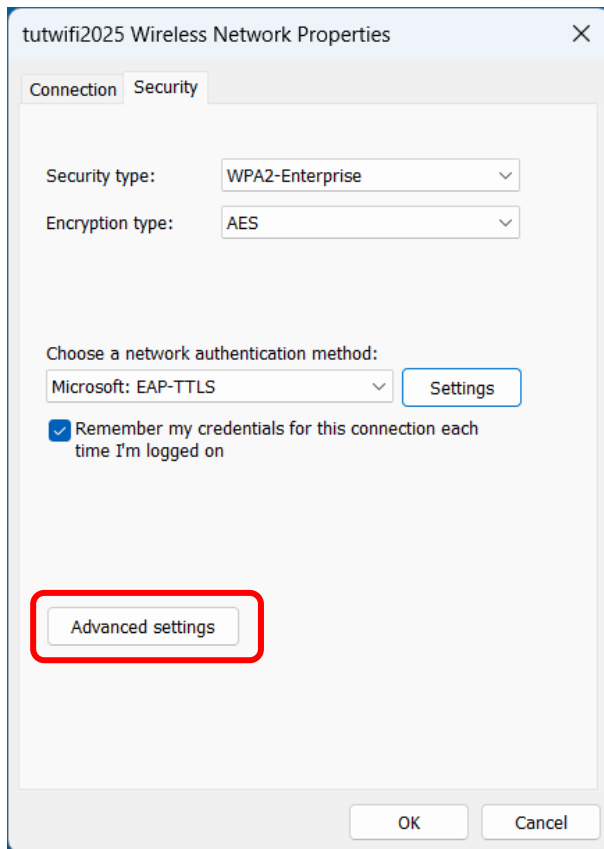

8. Choose "Security" tab, select "Microsoft: EAP-TTLS", and click "Settings" button.

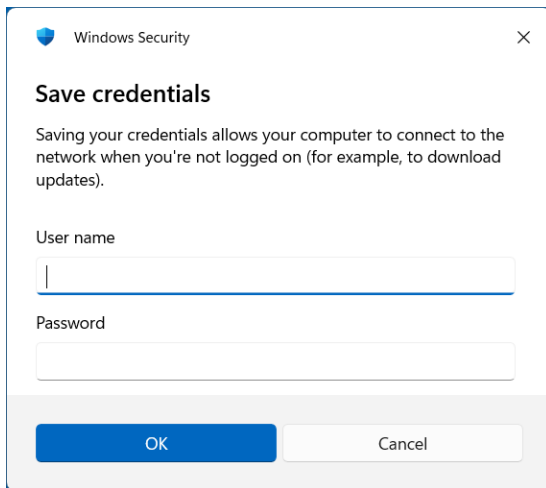

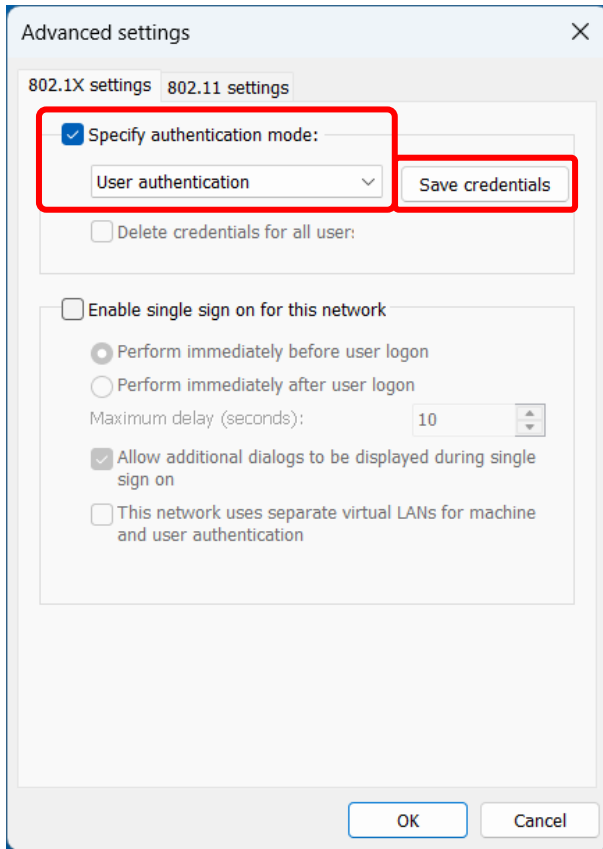

9. Uncheck “Enable identity privacy”, click “Select an EAP method for authentication” for client authentication and select “Microsoft: Secured password (EAP-MSCHAP v2)”. Click “OK” to close this window.

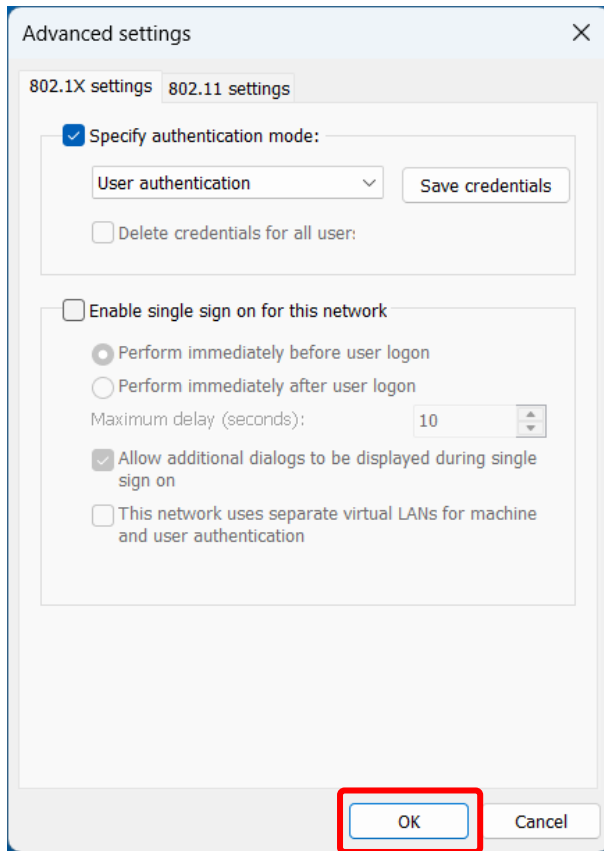

10. Click the “Advanced settings” button.

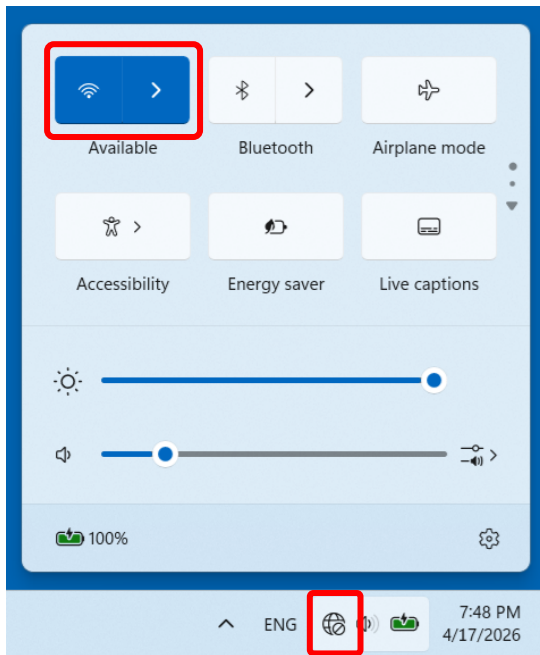

11. In this “Advanced settings” window, check “Specify authentication mode” and select “User authentication”, Click “Save credentials”. And then enter the user ID and password, then press “OK”.

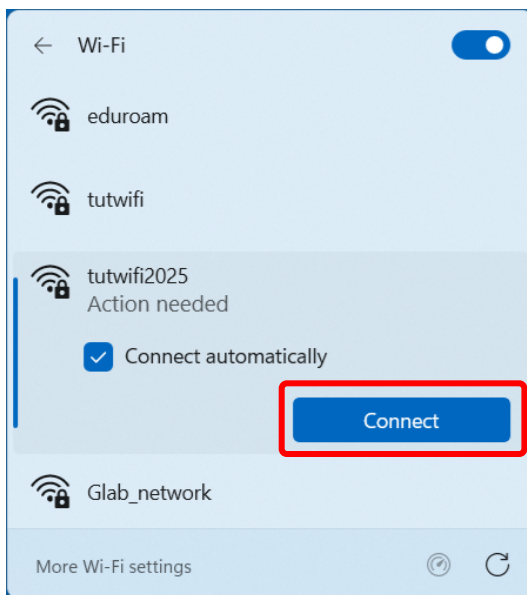

12. Click “OK” button to close “Advanced settings” and “tutwifi2025 Wireless Network Properties” window.

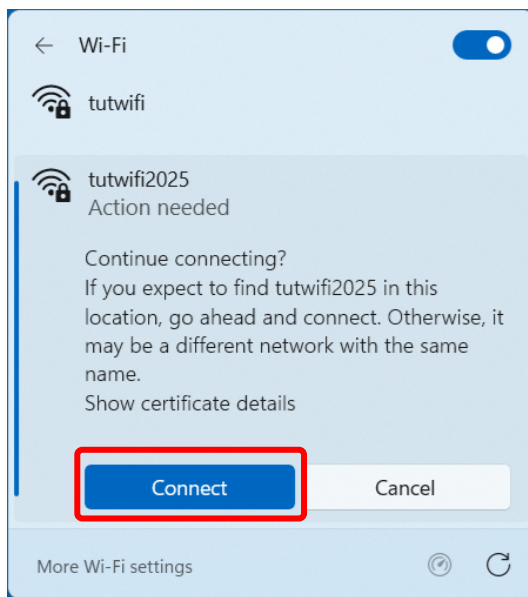

13. Left-click the network icon on the task bar. Click “Wi-Fi” icon and “>” icon.

14. Select “tutwif2025” and Click “Connect”.

15. Click “Connect”.

16. After a while it will be connected to tutwifi2025.

This is end of the procedure.
